

## SKIN CARE COMPOSITION THAT CHANGES COLOR UPON DRYING

5

10

A composition for forming a cosmetic mask including: at least one colorant; and silica, wherein when the composition is combined with water, the amount of the colorant and the silica is effective to provide a color change upon drying is disclosed. The composition may be useful as a skin care formulation, such as for a facial mask, a cleanser, and the like.

1. The first of the two main parts of the book is devoted to the study of the history of the English language. It begins with a chapter on the pre-historic period, followed by chapters on Old English, Middle English, and Modern English. The second part of the book is devoted to the study of the English language in the context of the British Empire and the Commonwealth. It begins with a chapter on the English language in the British Empire, followed by chapters on the English language in the Commonwealth, and the English language in the world.
